WELCOME MESSAGE

Dear Friends and Colleagues,

It is our great pleasure to invite you to our upcoming KHRS 2020: The 12th Annual Scientific Session of the Korean Heart Rhythm Society, which will be held virtually from November 20(Fri.) to 21(Sat.).

With the coronavirus crisis forcing us to defer KHRS 2020 to a later date, the Organizing Committee has made a decision to run a virtual conference this year since participants' health and safety are our top priorities. In order to satisfy your keen interest and continued support, KHRS 2020 will provide plenty of scientific programs, which will be joined by a number of experts in various fields.

KHRS 2020 is the one and only conference in South Korea that deals with all about arrhythmia from basic research to clinical content related to diagnosis and treatment. You will be able to meet up with globally renowned invited speakers through online, which will be a meaningful chance to share knowledge including the latest research trends in this field.

This year's KHRS will include live presentations and discussions with world-renowned scholars such as Dr. Gregory Lip, Dr. Akihiko Nogami, Dr. Shih-Ann Chen, and Dr. Kyoko Soejima. In particular, it will be held in conjunction with TTS 2020 (Tokyo-Taipei-Seoul Arrhythmia Joint Conference), providing a golden opportunity to interact with great scholars from Japan and Taiwan.

Especially, our invited speaker Dr. Warren Jackman will give a live presentation about 'Accessory Pathway'. Also the Scientific Session will feature a diverse array of lectures about AF, SPAF, VT, SCD, CIED, etc.

At a time when the COVID-19 pandemic has also had an impact on your research/academic activities, the Organizing Committee of KHRS 2020 has tried its best to provide an online platform for you to gain practical knowledge. Therefore, we cordially invite all of you to participate actively in the upcoming conference. We strongly believe that your active participation will make our 12th conference even more vibrant and fruitful.

Thank you.
